Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Group I:

(1) the specifics of the device of an electro-optical panel wherein all or part of each of the projecting patterns overlaps the corresponding data line comprises a first embodiment corresponding to Figure 5 (claims 1-2, 10, and 16);

(2) the specifics of the device of an electro-optical panel wherein all or part of each of the projecting patterns overlaps the corresponding scanning line comprises a second embodiment corresponding to Figure 11 (claims 3-4);

(3) the specifics of the device of an electro-optical panel wherein all or part of each of the projecting patterns overlaps the corresponding capacitive line comprises a third embodiment corresponding to Figure 16A-B (claims 5-6);

(4) the specifics of the device of an electro-optical panel wherein all or part of each of the projecting patterns overlap an area surrounded by the corresponding scanning line, data line, and capacitive line comprises a fourth embodiment corresponding to Figure 13 (claims 7-9);

Group II:

(1) the specifics of the device of an electro-optical panel wherein the aperture area is the same for the same color filters comprises a fifth embodiment corresponding to Figure 14 (claim 13);

(2) the specifics of the device of an electro-optical panel wherein the aperture area is different for the same color filters comprises a six embodiment corresponding to Figure 15 (claim 14).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species from each of the above groups for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 11, 12, and 15 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

Art Unit: 2871

examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Wen-Ying P. Chen whose telephone number is (571)272-8444. The examiner can normally be reached on 8:00-5:00 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Kim can be reached on (571)272-2293. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
